CalPril

September 2007

I. Product Information:

Manufacturer's name, address and telephone number:

Pacific Calcium, Inc.
32117 Highway 97
Tonasket, WA 98855

Trade Name: Calpril

Synonyms: Prilled calcium carbonate, prilled ground limestone, prilled fine ground limestone

Shipping Name: Ground limestone

II. Hazardous Ingredients: None

III. Physical Data:

Finely ground limestone with a binder of lignosulfonate to form prills for ease of handling. Lignosulfonate is a wood derivative used for dust control and as an ingredient in animal feed. It is also a pellet binder for animal feed.

Color: Brown.

Melting Point: Calcium carbonate 825° C

IV. Fire and Explosion Data:

Self extinguishing.

V. Health Hazard Information:

Effects of over exposure: None, harmless and non-toxic.

VI. General Information:

CaCO₃ is alkaline (ph9) may be used to neutralize acids. Calpril absorbs moisture readily; must be protected from moisture to retain prilled characteristics.
